Politeknik Elektronika Negeri Surabaya (PENS)

ABOUT ME

I'm a UI/UX designer who codes. I bridge the gap between visual design and working software, comfortable running Figma end-to-end while also shipping with Laravel, React, and Next.js when needed. At PENS I've worked across product design, event documentation, and web development, often at the same time. I'm drawn to work where design decisions connect directly to what gets built.

SKILLS

Design: Figma (Wireframe, Prototyping, Handoff) · UI/UX Design · Graphic Design

Development: Laravel · ReactJS · ASP.NET · Next.js · Flutter · HTML/CSS

Tools & IDEs: VS Code · Antigravity IDE (Google) · Zed

Creative: Photography · Videography · Video Editing · Event Documentation

Soft Skills: Public Speaking · Team Collaboration · Leadership

EXPERIENCE

UI/UX Designer & Graphic Designer | *PENSFEST 2026 — Volunteer Committee*
2026

- Designed visual materials for a major campus event as graphic designer.
- Involved in the design process from concept through final asset production.

Freelance Videographer | *Content Creator (Project-based)*
July 2026

- Hired by a content creator for a 2-day video production project.
- Handled shooting and editing for digital content needs.

Fullstack Web Developer (Frontend Focused) | *Karate Scoring App — Client Project (Paid)*
2025

- Built a web-based karate scoring platform for middle school coaches using Laravel monolith.
- Handled requirements through feature development, including student evaluation and training progress tracking.

Videographer & Editor | *AgileTeknik Fest 2024 — PENS*
2024

- Responsible for video documentation across the full event.
- Handled post-production editing for event publication needs.

BPH Laboratory Coordinator | *EEPIS News and Network Team (ENT) — PENS Student Organization*
2024 - Present

- Joined as a photojournalist member, later trusted as BPH Laboratory Coordinator.
- Covered campus activities and documented student achievements for publication.

Member, Public Relations & Media Division | *PKM Center — PENS*
2024 - 2025

- Supported preparation and promotion of PKM competitions for PENS students.
- Managed media communication and content for organizational needs.

Photographer & Photo Editor | *FUBAMIO — East Java Sports Event & Freelance Work*
Pre-2024

- Served as photographer and photo editor for an East Java-level sports event.
- Covered various private and public sports events as a freelance photographer.
- Produced ID card photos for high school student cards as lead photographer and editor.

COMPETITIONS & PROJECTS

REM-PAH — IoT Web Monitoring Platform | *KMIPN (National Polytechnic Informatics Student Competition)*

2026 (Selection in Progress)

- Built a real-time web monitoring platform for essential oil distillation, integrated with IoT hardware via MQTT protocol.
- Served as UI/UX Designer and Website Engineer in a 3-person team.
- Designed the interface to visualize hardware telemetry data in real-time, reducing production overhead for craftsmen.

DayOff — Leave Management Ecosystem | *Class Assignment — Team Project (8 Members)*

2026

- Designed and developed UI for 4 distinct roles: Web Admin, Web HR, Mobile Employee, and Mobile Manager.
- Served as UI/UX Designer, Frontend Engineer, and Mobile Engineer in an 8-person team.
- Applied Agile practices, daily stand-ups, and Git version control to deliver within a tight deadline.

BorrowIt — Asset Borrowing Management System | *Class Assignment — Individual Project*

2026

- Independently built a full-stack asset borrowing management system in 7 days.
- Used ASP.NET as the backend and ReactJS as the frontend with RESTful API integration.

ParuKuat — Mobile Health Application | *Mobile Programming Workshop — Team Project (3 Members)*

2026

- Developed a Flutter-based mobile app to help post-TBC patients improve lung capacity.
- Designed interactive breathing exercise features and daily progress tracking.

EDUCATION

S.Tr. Informatics Engineering | *Politeknik Elektronika Negeri Surabaya (PENS)*

2024 – Present

- Focus areas: software development, UI/UX design, and data analysis.
- Active in ENT (EEPIS News and Network Team) student organization and part of PKM Center.

SMA Muhammadiyah 10 GKB | *Gresik*

2021 – 2024

- Video editor for podcast, dakwah, and graduation teaser films.
- Lead photographer and editor for student ID card photo production.

SMP Muhammadiyah 12 GKB | *Gresik* | 2019 – 2021

SD Muhammadiyah 1 GKB | *Gresik* | 2012 – 2018
